Mass & Balance only

D-PRINT — Test Test POH wiring only [UNVERIFIED] · Normal

Generated: 2026-11-14T04:54:43.847Z (UTC)

Profile and source status

draft; draft [UNVERIFIED]

Profile verification is a recorded user check, not operational approval. Acknowledging a draft selection does not verify its data.

Calculation based on unverified external data. Pilot in Command assumes full responsibility.

Check all calculations against the aircraft's official POH/AFM before flight. The official handbook takes precedence.

Verification provenance: not recorded.

Profile source units: kg. Datum: Test datum [UNVERIFIED].

- Weighing date 2026-01-01, valid from 2026-01-01: BEM 500.0 kg [UNVERIFIED], empty CG 1.000 m [UNVERIFIED] (normalized SI).

Synthetic occupant 5: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text	0 kg [UNVERIFIED]

Station	Quantity
Synthetic occupant 6: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text	0 kg [UNVERIFIED]
Synthetic occupant 7: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text	0 kg [UNVERIFIED]
Synthetic occupant 8: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text	0 kg [UNVERIFIED]
Synthetic occupant 9: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text	0 kg [UNVERIFIED]
Synthetic occupant 10: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text	0 kg [UNVERIFIED]
Synthetic occupant 11: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text	0 kg [UNVERIFIED]
Synthetic occupant 12: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text	0 kg [UNVERIFIED]

M&B results

Endpoint	Mass	CG arm
Takeoff	550.0 kg [UNVERIFIED]	1.000 m [UNVERIFIED]
Zero fuel	550.0 kg [UNVERIFIED]	1.000 m [UNVERIFIED]
All usable fuel burned	550.0 kg [UNVERIFIED]	1.000 m [UNVERIFIED]

The all-usable-fuel-burned endpoint is not the trip-specific arrival. This summary does not assess full-flight or landing suitability and provides no Go/No-Go advisory.

Current M&B notifications

- **WARNING · WARN-AC-002 · Aircraft.Status**: Draft Profile Active

- **WARNING · WARN-UQ-001 · MassBalance.Plausibility**: Implausible mass on required stations: Synthetic occupant 2: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text , Synthetic occupant 3: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text , Synthetic occupant 4: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text , Synthetic occupant 5: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text , Synthetic occupant 6: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text , Synthetic occupant 7: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text , Synthetic occupant 8: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text , Synthetic occupant 9: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text , Synthetic occupant 10: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text , Synthetic occupant 11: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text , Synthetic occupant 12: Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text Long warning pagination text — verify input

Applicable category limits

Maximum takeoff mass: 1200.0 kg [UNVERIFIED]. Maximum zero-fuel mass: Not specified.

Envelope vertices (arm graph, closed polygon; tabular presentation only):

Mass	Envelope coordinate
500.0 kg [UNVERIFIED]	0.500 m [UNVERIFIED]
1200.0 kg [UNVERIFIED]	0.500 m [UNVERIFIED]
1200.0 kg [UNVERIFIED]	1.500 m [UNVERIFIED]
500.0 kg [UNVERIFIED]	1.500 m [UNVERIFIED]

No Performance, runway, weather or fuel/endurance planning results are included.
